

**Are there people in your area who are providing
Locksmith services without a license?**

Tell us about it!

We have successfully resolved many complaints about unlicensed locksmiths across the state already, and District Attorneys in Forsyth and Mecklenburg Counties are working to prosecute scofflaws as we speak. However, we know that there are still others out there. The Licensing Board simply doesn't have the resources to conduct statewide investigations, so we need you to be the eyes and ears of the Board in your neighborhood. We are ready to enforce the Locksmith Licensing Act, but the first step is for YOU to submit a complaint. Include as much information as you can about the person and their company. It can take months for the legal system to do its work, but we'll do all we can to make sure that all locksmiths are in compliance with the law.

Here's a blank form that you can use to file a complaint. Fill in as much information as you can, and attach copies of invoices or advertisements from the suspect. Then just mail this form and any additional information to the Board office. Thanks for your help.

The Complainant:
